advize

About the Program:

Our 3-Day Training Program is designed for healthcare plans and organizations who want to build a robust, cohesive team to manage healthcare fraud, waste, and abuse (FWA). This hands-on, practical training equips your team with the tools and expertise to prevent fraud and ensure compliance with federal and commercial regulations.

Day 1: Understanding the Landscape of Program Integrity

Defining Fraud, Waste, and Abuse – A Clear Path to Compliance

- **Introduction to Program Integrity:** Understanding the differences between fraud, waste, and abuse in healthcare programs.
- **Key Federal & Commercial Regulations:** Dive into Medicare, Medicaid, and other relevant regulations.
- **Understanding Vulnerabilities:** Learn to identify common weaknesses and how to mitigate risks.
- **Trust:** Build a culture of trust within your team by understanding program integrity's core principles.

Key Takeaways:

- Clear definitions of fraud, waste, and abuse
- Practical tools to identify and prevent fraud
- Overview of federal and state regulations

Why Choose Advize Training?

Comprehensive Expertise: Deep knowledge of federal, commercial, and Medicare regulations.

Tailored for Your Needs: Custom training designed specifically for your team.

Practical & Actionable: Real-world skills that can be immediately applied.

Expert-Led: Learn from seasoned professionals in SIU, Payment Integrity, and law enforcement.

Flexible Delivery: Available in-person, on-demand, or via live online sessions.

Partner with us to enhance your team's compliance and fraud prevention expertise.

Day 2: Investigative Excellence and Best Practices

Mastering the Art of Investigation and Recovery

- **Investigations A-Z:** From case initiation to resolution, mastering the investigative process.
- **DME Contracts & Compliance:** Key considerations for Durable Medical Equipment (DME) and ensuring they meet compliance standards.
- **Extrapolation:** Learn the art of extrapolation and how to apply it effectively in investigations.
- **The Art of Recovery & Coding:** Practical training on the nuances of coding, recovery techniques, and interpreting investigations.

Key Takeaways:

- Best practices in investigating healthcare fraud
- Mastering DME compliance and reporting
- Understanding the intricacies of extrapolation and recovery

Day 3: Building a Cohesive Team and Protecting the Future

Ensuring Long-Term Success and Accountability

- **Building a Cohesive Team:** Create a collaborative environment to streamline investigation efforts and compliance activities.
- **KPIs & Case Ownership:** Understand the importance of key performance indicators (KPIs) and take ownership of your cases.
- **Bridging Legal Interpretation Gaps:** Learn to bridge the gap between legal interpretation and practical investigation work.
- **SME Policies:** Understand the role of Subject Matter Experts (SMEs) in compliance efforts.

Key Takeaways:

- Develop a cohesive, effective compliance team
- Master KPIs to track and optimize performance
- Apply legal interpretation to everyday operations

Explore our **Webinars** to gain a deeper understanding of the topics we cover and see our expertise in action.
